REMARKS

This year has been one of uncertainty and expense. The school work has been broken up a great deal by the epidemic and by the changing of teachers in many of our schools. We have made up considerable time and hope to nearly complete the full year of work before July.

The pupils have been examined twice, under the provisions for medical inspection, adopted last year. At the last examination made since September, the following results were tabulated: Whole number of children examined, 208. 102 pupils were found with some defect: viz: defective teeth, 90: enlarged tonsils, 23; adenoids, 14; defective eyesight, 13: partial deafness, 4; impaired hearts, 4; enlarged glands, 2; skin affections (not contagious), 3; anaemia, 2; nervous disease, 1. 102 cards were sent to parents, notifying them of the ailments found, and 34 pupils had received treatment and been cured or relieved since the previous examination last spring. We feel that this early inspection has accomplished considerable and if followed will be of increasing value. Where treatment is secured the pupils receive permanent benefit and when, in cases like heart disease, warning is given the child can benefit by the advice and be saved from over exertion and possibly early death. We recommend that medical inspection be voted again this year and expect increased benefit therefrom.

In order to secure the best teachers and thus improve our schools, we must pay higher salaries. To do this it is necessary to raise more money and in our estimates for the coming year we have felt obliged to make the increase necessary to compete with our neighboring districts and so that we may secure the best of the teachers available.

RECOMMENDATIONS

We recommend that the district raise and appropriate the following amounts under the several articles:

Article 7. $4,000 in addition to the amount required by law.

Article 8. $200 as usual.

Article 9. $150 for medical inspection.

Article 10. $90 for reinsuring the Cutler school for 5 years.

To the Selectmen:

In conformity to law, the School Board recommends the following assessments for the ensuing year:

For high school tuition,	$1,500 00
For books and supplies,	500 00
For flags and appurtenances,	25 00

The amount required by law to be raised for the support of schools in Swanzey for the ensuing year is $2,002.50.

Owing to legislation now under consideration at Concord, it is unwise to have the district meeting on town meeting day. As soon as this matter is decided, we shall post the warrant for the annual district meeting, to be held not later than April 20th, as required by law.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Board of Education, Swanzey, N. H.

I hereby submit my seventh annual report as superintendent of schools.

THE TEACHING FORCE

The following changes have occurred since my last report:

Resigned	School	Elected
Katherine B. Atwood	Cutler School, Gr. 1, 2,	Adelaide Gay
Alta F. Silsby	Cutler School, Gr. 3, 4	Mary Hanna
Hazel M. Elwell	Cutler School, Gr. 5, 6	Mary Nugent
Cecelia M. Burpee	Cutler School, Gr. 7, 8	Hazel M. Elwell
Hazel M. Elwell	Cutler School, Gr. 7, 8	Sara A. Lucas
Susan M. Acherman	East Swanzey Grammar	Vesta Knight
Annie E. Lynch	East Swanzey Primary	Ethel Murphey
Grace E. Carlin	School No. 5	Lillian F. Barrett
Lillian F. Barrett	School No. 5	Sibbelle G. Forsythe

Three schools only retain the teachers of last year. The above table shows that there were nine resignations in a corps of ten teachers or ninety per cent of changes. These changes were the result of an unprecedented shortage of teachers due to their entrance into war work and its related industries. The

sharp advance in wages due to these conditions accounts for the 15 per cent increase this year in teachers' salaries.

School sessions have been suspended for from five to seven weeks because of the prevalence of influenza and for as many more weeks there has been a marked decrease in school attendance for the same reason.

SCHOOL ATTENDANCE

The following table gives the statistics of attendance for the school year ending July 15, 1918.

Number of different pupils enrolled,	250
Number under five years of age,	3
Number between five and eight,	72
Number between eight and fourteen,	157
Number between fourteen and sixteen,	9

SCHOOL GARDENS

Last spring eighty-two school children of Swanzey enrolled in the Army of Junior Food Producers, planted gardens and raised vegetables estimated to be worth over $750. In all the schools of New Hampshire there was an enrollment of more than 32,000 members who produced over $100,000 worth of food material.

We are to have garden projects again this year because it is believed that gardening is quite as fundamental in elementary education as are manual training, sewing and any

other of the constructive activities which employ the muscles as well as the mind. Moreover gardening under school guidance is important this year because it will give an opportunity to school children to "do their bit" to help America to meet its obligation to the stricken countries of Europe. This year the Junior Food Producers are recognized as a Division of the United States School Garden Army. This recognition brings with it as helps a large number of leaflets on special phases of garden work which will be furnished free to every member of the army. The aim this year in New Hampshire is an enrollment of 50.000. and a production of $250.000 worth of vegetables.

We urge the hearty cooperation of all parents and other friends of the schools in our effort to place the Swanzey regiment on record as having taken an honorable part in this worthy enterprise. Already membership blanks are in the hands of all the teachers and the enrollment of the children is in progress with the prospect of a substantial increase over that of last year.

The educational forces throughout the country are emphasizing the importance of the enrichment of the school program in five directions:

1. By the teaching of current events to inform the pupils of the present activities and ideas of world importance.

2. By teaching personal and community hygiene in a way to make it function in correct living and worthy citizenship,

3. By teaching lessons of thrift with application in the purchase of thrift stamps.

4. By teaching conservation through instruction in economy, savings and avoidance of waste in small things.

5. By the introduction of school-home gardens to furnish that important educational training which is derived from those constructive activities which employ the muscles as well as the mind.

Instruction in current events has occupied a place in the weekly program of the Swanzey schools for many years past.

Instruction in practical hygiene has been practiced with increasing emphasis from year to year. We are now receiving the cooperation of the Red Cross society in bringing to the attention of children specific daily chores to be performed that the habit of doing them may be inculcated.

Thrift instruction has been given in the Swanzey schools for many years and with the cooperation of the Keene National Bank the children have been encouraged to bank their small savings. During the past years more than a thousand dollars worth of Thrift and War stamps have been bought by the pupils.

Through the economical and careful use of pencils and paper and other supplies the children have been led to practice the art of conservation which is so important to personal and community prosperity.

Gardening has been for five years a subject of instruction in our schools. The work was begun under the able leadership of Mr. Carlisle who established boy's clubs in each village of the town. Since then the work has broadened and extended until last year the garden products amounted to $750.

We are justly entitled therefore to the recognition of the

fact that in the newer work of the school as well as in older subjects we are fully abreast of the times.

In several of our schools the interruption of the work which the prevalence of influenza and the changes of teachers caused will prevent the full performance of a year's work. We are striving however to secure by more intensive work as great an ameliorization of these conditions as may be practicable.

Respectfully submitted,

ANDREW P. AVERILL.

(TOWN WARRANT)

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Swanzey in the County of Cheshire in said state, qualified to vote in town affairs:

You are hereby notified to meet at the Town House in said Swanzey on Tuesday, the eleventh day of March next at nine o'clock in the forenoon to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.

3. To hear the reports of town officers and agents in regard to the present methods of conducting town business and to receive any suggestions as to changes and to act thereon.

4. To see if the town will vote to raise money to secure state aid on its highways or take any action thereon.

5. To see if the town will vote to raise $250 for state aid maintenance, the state to give $250.

6. To see if the town will vote to raise $3,500, the state and government to give $7,000.

7. To see if the town will vote to raise $2,600 to maintain its trunk line, the state to appropriate $3,900.

8. To see if the town will appropriate $200 for the control of the white pine blister rust, to be duplicated by the state fund, also by the government fund, making a total of $600 available.

9. To see how much money the town will vote to raise to decorate soldiers' graves.

10. To see how much money the town will vote to raise for Richardson Park.

11. To see how much money the town will vote to raise for Old Home Week.

12. To see how much money the town will vote to raise for care of cemeteries.

13. To see how much money the town will vote to raise for electric lights.

14. To see if the town will vote to raise $100 for Stratton Free Library.

15. To see how much money the town will vote to raise for the maintenance of the fire department.

16. To see how much money the town will vote to raise towards paying the town debt.

17. To see if the town will vote to give a discount on all taxes paid by the first day of July.

18. To see if the town will vote to place one light on the pole already set beside the railroad station at Westport.

19. To see if the town will vote to have the April invoice printed in the town report permanent.

20. To see if the town will vote to accept a gift of $100 returned from Red Cross fund from George E. Whitcomb.

21 To see if the town will vote to accept the old district way of working the town highways.

22. To appoint one committee for Old Home Day.

23. To see if the town will vote to place a suitable honor roll for the boys of our town who served in the World War, in or outside the town hall, Swanzey Center, and appropriate money for the same.

FRED D. CHICHESTER,
HENRY W. BANKS,
FRANK O. DODGE,

* Surplus

The Town debt shows a reduction of $4,664.49, but part of this is due to the change in the manner of raising money for school purposes. In the past the Selectmen have carried all school money in their accounts, but the past year the Board of Education has borrowed $3,000, and this is carried as a School District Debt.

MILAN A. DICKINSON, Auditor.

SCHOOL BOARD REPORT

Required annual report of school board to district, stating amount of money needed for support of schools and for statutory requirements (see Laws of 1919 106:21).

1. Amount of money required by law ($3.50 on each $1,000 of the 1920 inventory).

2. Statement in detail of the additional amount of money required for the support of schools, and payment of statutory obligations for the ensuing fiscal year.

I. BUDGET (SCHOOL MONEY)

		Elementary Schools	High Schools
(a)	For support of schools, (This is school money and may be used for maintaining schools including the purchase of fuel and other supplies, the transportation of pupils and incidental repairs not exceeding 5% of school money).	$8,650 00	
(b)	For purchase of textbooks and scholars' supplies,	500 00	
(c)	For the purchase of flags and appurtenances,	25 00	

(d)	For the payment of tuitions at high schools and academies,		$1,500 00
(e)	Total amount required for above items,	$9,175 00	$1,500 00
(f)	Estimate of amount of a $5 tax on the 1920 inventory,	$7,800 00	

II. REQUIREMENTS TO MEET BUDGET

(a)	For support of elementary schools, (If the amount required for elementary schools is more than the amount of a $5 tax—the amount of a $5 tax should be reported—otherwise the amount required).	$7,800 00
(b)	For support of high school or payment of high school tuitions, (Ordinarily districts that support a high school do not pay tuitions. Both items might be required.)	1,500 00
	Total for support of all schools (School money),	$9,300 00

III. SCHOOL BOARD REPORT OF ASSESSMENT REQUIRED

(1)	For the support of schools and the purchase of required books, supplies and flags, and the payment of high school tuitions,		$7,800 00
	Estimate of $3.50 tax on 1920 inventory,	$5,460 00	
	Estimate of additional sums needed,	2,340 00	

(2)	For the payment of the per capita tax (statutory),	610 00
(3)	For the payment of debt (statutory),	1,000 00
(4)	For the payment of interest (statutory),	150 00
(5)	For the payment of other statutory requirements (if any),	
	(a) High school tuition,	1,500 00
	(b) Officers' salaries, Art. 8,	210 00

IV. RECOMMENDATIONS FOR AMOUNTS TO BE APPROPRIATED

Art. 7, $5 on each $1,000 of 1920 valuation.
Art. 9, $1,000,
Art. 10, $1,000.
Art. 11, $100.
Art. 12, $100 or more, if it is desired to increase the amount of insurance.

REMARKS

We wish to again call the attention of the parents to the medical inspection and urge them to follow up any recommendations made as by so doing many defects and diseases of children can be permanently cured, which if left to develop may place a severe handicap on the child in after life.

The state laws demand certain sanitary arrangements in lighting and heating and a good start in this direction has been made in the school buildings. The Swanzey Factory building badly needed repair and last summer it was put in first class shape so that now it is up to the standard set by the state. The heating system will need major repairs or renewal in a short time.

The boiler at the Cutler School which has long been in very bad condition finally went to pieces. We were fortunate in being able to get a new and better one and having it in place and in use in a very short time.

Our corps of teachers under Mr. Smith, superintendent, are doing very efficient work and we feel sure that the pupils will show marked improvement over previous years broken as they were by sickness and changes in teachers.

A. W. HOPKINS,
SADIE D. CARLTON,
H. W. BROWN,
School Board.

SUPERINTENDENT'S REPORT

To the Board of Education and Citizens of Swanzey, N. H.:

I have the honor to submit my first annual report.

Under the provisions of the new law, the state was divided into 64 supervisory unions and Hinsdale, Swanzey, Winchester, Richmond form Union No. 25. Mrs. Sadie D. Carlton was elected secretary.

The teaching force for the present year is as follows:

Cora I. McKellips, grades 7-8.
Margaret E. Glendon, grades 5-6.
Dorothy Emery, grades 3-4.
Gertrude L. Landin, grades 1-2.
Mrs. Alice D. Matthews, No. 1, Grammar.
Gertrude Kingsbury, No. 1, Primary.
Vesta Knight, East Swanzey, Grammar.
Ethel Murphy, East Swanzey, Primary.
Mrs. Grace Carlin, No. 5.
Blanche Emery, No. 7.
Florence Christian, No. 9.

Mrs. Grace Carlin resigned at the Christmas vacation and Miss Charlotte Seaver was secured for school No. 5.

The Board were fortunate in recognizing there would be

a continued shortage of teachers and demand for increased salaries, and early in the season filled the vacancies with teachers of marked ability. The school work suffered few interruptions and made steady progress to the mid-year. Since that time the weather and the epidemic has caused the schools to close. We hope this time lost can be made up during the school year.

In reporting the condition of the school equipment to the State Board of Education who are making a survey of the state, we found the property of your district in excellent shape. A few minor changes and a policy of one building a year remodelled, to improve lighting and sanitation, will enable your town to comply with all conditions of state aid. The school building at Swanzey Factory has been remodelled so that it comes under state requirements in every respect, the first one in the union. For the coming year we suggest No. 5 be improved.

A new Westfield furnace of the type used in the Keene High school building was installed in the Cutler school during the Christmas vacation.

The school gardens closed a successful year by exhibitions of garden products. One deserving special mention was at School No. 1.

The Thrift campaign is one of the regular activities of the schools, but there is a marked decrease in interest since the war ceased. There is great need at this time to emphasize thrift, for as a nation we are spending prodigally.

The pupils of the Cutler Building did excellent work selling Red Cross Stamps and a Health Bond was purchased by the pupils of this school.

From the proceeds of an entertainment, pictures and Victrola records have been purchased for the building. In East Swanzey primary, the children have started a school library, raising the money by their own efforts. All these endeavors are indications that the children are preparing to be good citizens.

The epidemic caused many cases of vaccination to be omitted last year through the whole union, but with the co-operation of the parents and medical inspection, this situation was fully remedied.

We wish to express our appreciation of the efforts of teachers and Board of Education in striving to make the schools of Swanzey the best possible.

Respectfully submitted,

GEORGE O. SMITH,

From the proceeds of dances conducted by a committee with Dr. A. W. Hopkins as chairman, the following permanent equipment has been added to the hall at an expenditure of over $185.00: Clock, three electric fans and card tables.

The committee would suggest that the balance on hand this year be put into a fund to be expended during the coming year in painting the hall.

Respectfully submitted,

HENRY W. BROWN,
A. W. HOPKINS,
DANIEL J. GROGAN,
Committee.

Circulation of books in 1920 by months as follows: January, 390; February, 392; March, 306; April, 393; May, 413; June, 338; July, 271; August, 26; September, 227; October, 323; November, 285; December, 240. Total taken out during the year, 3,884. Average per week, 74.9.

Owing to the money being used for other necessary purposes, there were no available funds with which to buy new books, and it was thought best to raise money for that purpose by subscription. Through the generosity of the people of West Swanzey the sum of ($70.00) was raised which has been wholly expended for new books.

The trustees recommend an appropriation of $125.00.

REMARKS

The School Board has made every effort to keep all the schools running this year with the best teachers obtainable. In nearly all, the results have been satisfactory. All supplies and fuel have been very high and the pay of the teachers has been very much increased, as it has in all other districts. Under the law the state should pay all the expense in excess of the $5.00 tax. Until the present legislature acts, we do not know how much of this excess the district will receive. For this reason the school meeting is not called at this time, but the warrant will be posted as soon as possible, calling the meeting not later than April 20th, as provided by law.

Under Article 8. (Officers' Salaries, we recommend raising $300.00 to allow paying $50 towards the superintendent's salary, as the other districts in this union are doing and to increase the Treasurer's salary. Her duties have been so much increased that she should have more pay.

A. W. HOPKINS,
SADIE D. CARLTON,
H. W. BROWN,
School Board.

SUPERINTENDENT'S REPORT

To the Board of Education and Citizens of Swanzey, N. H.:

I have the honor to submit my second annual report.

There were 1.075 pupils registered in Union No. 25 the past year, of which Swanzey enrolled 258, and 34 attending high school. The state average for attendance is 92% and our schools had 92.34 which is a good showing, and a gain of 2% over last year. Two schools only, No. 5 and No. 9, fell below 90%. All schools completed 36 weeks except in the Cutler building.

For 1919-1920, Swanzey paid the state $1,188.91 state tax; $604 per capita tax; $25 superintendent; total $1,817.91. Under state aid, received $1,033 for qualified teachers and high school rebate, and $693.63 equalization fund; total $1,726.63.

This means that Swanzey paid to the state for equalization, $91.28 which pays also for your supervision. We hope to receive this year $2,978.14 if the new school law receives the support of the legislature.

The teaching force for the present year is as follows:
Cutler building:

Cora I. McKellips, grades 7-8.
Marjorie L. Oakman, grades 5-6.
Dorothy Emery, grades 3-4.

Gertrude J. Landin, grades 1-2.
Mrs. Alice D. Matthews, No. 1, Grammar.
Grace L. Ward, No. 1, Primary.
Mary E. Coll, East Swanzey, Grammar.
Helena Coll, East Swanzey, Primary.
Myrtle Whitcomb, No. 5.
Marion Ellis, No. 7.
Florence Christian, No. 9.

No. 7 was supplied by Keene Normal until Christmas, Miss Roberts and Miss Haley serving the legal period of six weeks each. In spite of the increased salaries, five out of eleven teachers are changed. The school work, although hampered by this large percentage, has made marked progress. In East Swanzey, Miss Helena Coll has utilized the splendid equipment of the Community building for classes in cooking and sewing.

The work of bringing the school equipment up to minimum requirements continued through the summer. No. 5 has been completely remodelled and with a school of 35, has justified the expense, which exceeded the appropriation. If the schoolroom had not been enlarged, it could not have accommodated so large a school.

At the Cutler building the fence was moved back 55 feet to increase the size of the play ground, and needed changes in the sanitaries made. The seats were rearranged in some rooms for better lighting and this building is now up to requirements. No. 7 was put in satisfactory condition, also. Some changes, which are needed at No. 9, can be made at small expense.

A petition has been received asking for electric lights at No. 1. The same need is felt at East Swanzey and the Cutler building. This is not a state requirement, but a matter for

local towns. There is no doubt it would increase the efficiency of the teachers and be of great use to pupils during the winter season. It would also make possible the school houses as community centres. I do not recommend immediate action, but suggest the next step in improving your school property should be the installing of electric lights wherever possible.

Owing to our nearness to Keene Normal, special teachers of music and drawing can be secured reasonably, and I recommend it for the coming year.

In conclusion, I thank the Board of Education, teachers and citizens, for helpful support and loyal co-operation.

Respectfully submitted,

GEORGE O. SMITH,

REMARKS

The schools throughout the district have been very satisfactory in most respects. The salaries of the teachers were raised as necessary, so that capable teachers were retained or others hired to fill the vacancies. Grades I-IV at Swanzey Center have been accommodated in the library building. The enrollment at the library and at No. 5 has been from 18 to 20 pupils in each school, and the same conditions will probably make the extra room necessary for next year.

The expenses for the year seem large but they have been in reality about the same as usual. The deficit was caused by the method which the state used in giving the State Aid. The towns are now divided into 3 classes, based upon current expenditures per $1,000, of equalized valuation in the towns. From 166 towns, 117 fall in Class A and are allotted regular distribution amounting to 95% of the entire sum to be given for aid. Swanzey is graded as the 126th town and thus falls with twenty-three others in group C. This group receives the remaining 5%. Our budget was cut down $1,500 by the State Board, and although our approved claims were $4,505.59, our percentage allowance was only $2,634.18. Therefore we have suggested that the town should raise the money to make up the deficit of $3,000.

SUPERINTENDENT'S REPORT

To the School Board and citizens of Swanzey:

I hereby respectfully submit my first annual report as Superintendent of Schools.

My first care on taking charge of the Swanzey schools in September was to ascertain as accurately as possible how the schools ranked in actual accomplishment of the work that schools are supposed to do; in other words, to find out how the schools of this district compared, grade for grade, with schools in general throughout the country.

Up to within a few years practically all school systems have been run in a more or less haphazard fashion, with no means of knowing definitely whether or not they were really accomplishing what they should in the way of pupil instruction. It has been customary to build schoolhouses, equip them with furniture, books, and other supplies, hire teachers more or less properly qualified to teach, run the schools so many months per year, and then take for granted that the schools were functioning properly in the way of teaching the children the things they ought to know and developing in them the mental attitudes and habits of action requisite to social efficiency and good citizenship.

All too often this confidence has been misplaced. But until recently there seemed to be no way of checking up the work of the schools as we can measure the output of a factory. Neither was there any way of comparing directly the work done in one school system with that done in other school sys-

tems. This was due primarily to varying standards of grading among teachers and superintendents. Each teacher and each superintendent had his individual ideas on the subject and the standards of their particular teachers or supervisors were the ones which the schools of any particular locality were expected to achieve. Hence it came about that the schools in neighboring communities, and even within the same community, would vary greatly in efficiency due to lack of standardization of subject matter and grades. An eighth grade in one school might not be so far advanced in their studies as the sixth grade in another school, simply because there were no definite standards of accomplishment for any grade other than those of individual teachers and superintendents.

As a consequence, a community might easily become misled into the belief that it had excellent schools when in reality its schools were much below par as compared with those in other towns. Only when parents moved to other places and their children had to be put back a grade or two did they awake to the realization that there is a vast difference in the efficiency of schools in different communities even when one community spends as much or more on its schools as the others. Sometimes the town that is spending the most money on their schools is getting the least in the way of educational results.

But conditions have changed greatly in this respect during the past few years. It is no longer necessary to guess at what the schools are accomplishing, or how they compare with schools in other parts of the state or country. There is no longer any reason why any community cannot know just how its schools rank in comparison with schools in general in this country. We now have instruments with which we can measure the accomplishment of pupils from year to year, not in accordance with the judgment of particular teachers of superintendents, but in accordance with what the pupils in thou-

sands of other schools have done. We can tell which schools are doing more and better work per year just as we can tell which of several factories are turning out the most pairs of high grade shoes or the most yards of fine cloth in a given time. Furthermore, we have definite standards of achievement for each grade in each school subject and can measure with a fair degree of accuracy, just how far any class or any individual pupil is behind or ahead of the grade standards. The efficiency of the teacher can be measured by the amount and quality of work she accomplishes, as indicated by the progress of her pupils, just as the efficiency of the woodchopper can be estimated by the number of cords of wood he can cut in a given time.

The instruments by means of which all these desirable things can be accomplished are standardized tests in the various school subjects. We know what hundreds of thousands of other children in many different schools have done with these same tests and we simply compare the work of the children in our schools with that of these other children. These instruments from the comparative measurement of classroom products are not yet perfected but, even so, they are by far the fairest and most accurate means yet found with which to measure learning and the efficiency of instruction. Early in the fall a survey of the schools of this district was made by means of standardized tests in order to ascertain the conditions existing at the beginning of the school year. In the first three grades the work was found to be up to standard. The five upper grades averaged about a year below standard in knowledge and skill in their respective subjects as compared, grade for grade, with elementary schools throughout the country.

These conditions were due for the most part, probably, to the lack of definite grade objectives on the part of both teachers and pupils and to the serious lack of textbooks and other

teaching equipment. The lack of objectives, that is, the lack of definite standards of accomplishment for each grade is a condition that exists in most school systems wherein no provisions are made for measuring comparatively the products of the classroom.

There was a great lack of textbooks in all the schools. Many classes had no more than half enough books to go around even in the most fundamental subjects. There were not even enough arithmetics, grammars and geographies, and there were practically no spelling books at all. Neither were there any reading books for grades above the third, and not nearly enough for the lower grades. The histories were sadly out of date. This was also true of civics and physiology and hygiene tests. Because of lack of necessary books the pupils were greatly handicapped in trying to study, and teachers had to spend much valuable time in putting lessons on the blackboard instead of helping and instructing the children.

The lack of needed textbooks has been largely remedied. The conditions necessitated a much larger expenditure of textbooks than the district is accustomed to laying out in any one year. In considering this fact it should be remembered. (1), that the need for such expenditure was brought about by the failure to spend reasonably large amounts for textbooks in years past; (2), that the books were absolutely necessary if the schools were to accomplish results consistent with the amount of money already being spent on them, and if the time of the teachers and pupils was to be used to good advantages; (3), that, when the schools are once equipped with necessary textbooks, it will be five or six years at least, before further extensive purchases need be made. Not only do books wear out, but in this age of rapid progress, they get out of date and should be replaced every five or six years in any school system that pretends to be progressive, and to give the children the best educational advantages it can afford. In

this connection, however, I may state that the purchases made this year were not to replace old books that might have been made to serve a while longer. Except in the case of some old histories and civics and geographies, they were for books that were needed and were entirely lacking. The needs of the schools in this respect are not yet fully met. It would take four or five hundred dollars more to properly equip them with texts needed to carry out the state program of studies. We also need a special appropriation for maps and globes. Geography cannot be taught efficiently without them. Yet they are either entirely lacking or so out of date as to be practically useless, in many of the classrooms.

It is too early in the year to do more than prophesy in regard to the results of measures taken to remedy the conditions revealed by the survey made in September. The midyear tests have just been completed and the pupils' scores tabulated. The graph records show on the average much more than normal progress for the first half-year, particularly in the schools where the teachers were quick to see the advantages offered by the standardized tests and to study the results of the tests with a view to making their work more effective. If anywhere near equal progress is made during the last half of the year, not only will a normal year's work be accomplished, but, in most schools, a large percentage of the arrears will be made up. Present indications are that the majority of children in all the schools will be found nearly or quite up to grade standards by the end of the year. The results in most schools are even better than I had hoped for. The tests are proving a mighty motivating influence in the work of teachers and pupils in schools where they are being used with interest and understanding.

It is my plan to give the tests in all schools three times a year. The September tests are to find out how the schools stand at the beginning of the school year. The midyear tests

are to find out how the pupils are progressing in their school work and where there is failure to make proper progress so that there weak points can be given special attention for the last half of the year. In June the tests are given again for promotion purposes. In this way we can keep track of how the pupils are progressing in their studies as compared with the pupils of other school systems, and see wherein and to what extent the schools are succeeding or failing in their purpose. Permanent records are kept of the progress of every pupil by means of recording the results of the tests on graph cards, one of which for each child in the district is kept on file in the superintendent's office.

These cards show at a glance each child's standing in his or her studies at the beginning, at the middle, and at the end of the school year. Each teacher has copies of these cards for the pupils of her particular school.

The purpose of the whole scheme is to eliminate haphazard guesswork in the conduct of the communities most important and most expensive business, and to substitute therefor scientific accuracy in measurg the efficiency of that business so that everybody concerned may know just how the schools stand in point of efficiency at any time; that is, how they stand in regard to value received by the district for every dollar expended in comparison with the schools of other communities.

My own time and energy has been directed almost entirely so far in trying to get the schools up to national standards and in getting into operation a system of administration that will keep them there. It is only with the interested help of the teachers that superior results have been and can be accomplished, for after all, the teacher makes the school. The district can furnish the buildings and equipment, and the superintendent can plan and guide and help, yet, if the teacher falls down on her end of the job, failure is bound to result. Hence the need of wide-awake, progressive teachers, with broad views of their

duties to the community and to the children whose future welfare is placed in their care.

The superintendent has asked much of the teachers during the past few months. He has asked for special effort, for extra work, and for intelligent cooperation in much that was new to them in the way of plans and methods. In most cases the things he has asked for have been given cheerfully and effectively. This spirit of cooperation and progressiveness is appreciated.

In concluding I want to express my appreciation and thanks to the members of the school board for their interest in my work and their help in meeting the difficulties of the situation as I found it. I request their continued cooperation and that of the citizens of Swanzey in my plans to make the schools of this district the very best that can be had for the money. In return I pledge my best services to that end.

Respectfully submitted,

SAMUEL S. BROOKS,

Superintendent.
